"I'm excited for the season. I want to see how are team works together in a game because during practice we have a lot of energy. We seem to have a lot of chemistry and I want to see how that applies to the game."

**On what she expects from herself this season...**

"I expect to get better everyday and contribute to the team with whatever I can."

**On how practice has been...**

"They have been hard, but we keep picking each other up so we get through it easy. You don't feel like you are by yourself. You know it is hard, but you know your teammates are there to help pick you up."
