5-0, 2-0 Big 12

POSTGAME QUOTES

Head Coach Lance Leipold

On the backups coming in due to injuries, specifically Emory Duggar and Jason Bean...

"Yeah I mean we had guys that got opportunities today and I think they stepped up, and they did a lot of good things. You need that. Injuries are a part of the game, whether we like it or not. That's why we keep talking about how you practice and how you prepare. I thought both those guys did a nice job."

On Jason coming in at quarterback for the second half...

"It's business as usual. He prepares and gets his opportunities. Again, we just had a little more time to talk to him specifically about certain things and, like a normal halftime. Again, I thought it worked out, other than maybe one throw."

On the defense...

"They're a physical football team. You can see some things there that we still have to continue to grow, because of some of those things that you see with missed tackles or getting off coverage, which we have to continue to work at. Again, our margin of error in games against opponents like this is still very small. Our execution and untimely penalties and things like that, we have to get better at. I have to do a better job for them to make sure we're in a better position."

On screen defense...

"Offense does a great job when they have big physical guys. Sometimes it gets to be quick and physical, but at the same time they're good at getting the ball out. Just like Tanaka Scott making a big play for us down the sideline, it's the same thing and it's a part of the game. I thought there were times we did a really job. Kalon Gervin did a really nice job of playing and taking it on with hands and getting off things. Again, it's something that we will continue to drill and work on. We'll improve, I know that."

On Jalon Daniels injury...

"Not right now. Obviously it's his shoulder and honestly, other than he was down, he's out for the rest of the game. I was told like right when we got back out on the field. Other than that, I don't know anything. I don't think I'll know completely until maybe tomorrow or something like that, when I get the trainer's report. Good or bad, things change in 24-48 hours many times."
