Kansas Head Coach Bill Self:

On what TCU did well...

"The way they (TCU) chewed gum, the way they tied their shoes; everything they did was perfect today. They played great. They are so fast. They are so athletic off the bench. Their bench was unbelievable. We actually got a ton of good looks in the first half, a ton. We missed a lot of layups. We didn't finish some plays."

On not being able to get back into the game in the second half...

"We didn't guard well, but I thought we didn't score and the good looks we had, missed. I thought it got a little bit like we were playing like we had a 10-point play in our back pocket as opposed to just trying to win that possession. That happens a lot when you get behind like that."

TCU Head Coach Jamie Dixon:

Opening statement...

"I knew they (Kansas) were good. I said we got to get to them early and do not let them get them in the groove. I think the difference was the bench for us. I'm just proud of our guys responding to a tough loss on the road and winning a game you are not supposed to win when you are on the road for two days and two games in a row. It was a great win for us."
