

KANSAS WOMEN'S GOLF

ROCK CHALK GOLF TALK | SPRING 2024

Head Coach - Lindsay Kuhle

This was another record breaking season and year and I could not be more proud of this entire team's effort, hard work, dedication, and commitment they put in this year to accomplish their goals. From the very first tournament at UNM to the last at the NCAA Regional Championship, this team showed up and competed and gave their very best. The records they broke from the 18, 36, 54 hole team score, to the single season team scoring average record, the first win in 6 years by a team, and the first in 3 years by an individual, this team showed up to compete with the nation's best. Not only were they exceptional on the golf course throughout the season, but in the classroom as well earning a 3.83 gpa, which is a program best, with six players earning WGCA All-Scholar awards team recognition, which is the most in program history in a single season. I am so proud of their determination, as it was a complete team effort of all twelve ladies to accomplish their lofty goals this season. We had four players earn a perfect 4.0 this season, five players shoot their lowest stroke average in their career (Rothman, Hirst, Hawks, DeKock, and Clark) and ten players compete on the team during competitions. This shows our depth, the development of our players, and their commitment to improving themselves as students and as athletes. I look forward to the seasons to come and know that the future is very bright with the student-athletes we have on the team representing KU. Thanks again for your support!

SPRING Results

Match In The Desert

Jan. 22 | Superstition Mountain, AZ

TEAM FINISH: 5th Place

Jayhawk Top Finisher: Lily Hirst T-6th place

UCF Challenge

Feb. 3-5 | Orlando, FL
